UPDATE TO OUR MEMBERS: ANNUAL POOL MAINTENANCE

As we are in week 8 of the annual maintenance for the pool, we would like to update our members on the status of repairs.

Pool Area:

The grates around the pool have been removed and tile repairs are underway, old stairs have been removed from pool, new stairs will be installed when tile repairs have been completed. New gutter grates have been ordered and will be installed once tiling work has been completed.

Ceiling in Pool area:

The contractor for the ceiling repairs started on Tuesday January 10, 2012; the work on the ceiling is scheduled to be complete by January 31, 2012.

Pool Mechanical Room:

Water Storage tanks for the pools are being cleaned, by the YMCA facility staff. Automatic Aquatics staffs from Edmonton were on site this week to assess the material needed to complete the required maintenance on our filtration system.

As the maintenance and repairs are underway, management is working on the HR plan for the Aquatic Department. If there are any questions do not hesitate to speak to a Member of the YMCA staff team.

Management and Board of Directors would like to thank our members, staff, volunteers and community partners for their ongoing support.
